Weber iGrill Pro Meat Probe

Item Number : 185988

The Weber iGrill Pro stainless steel meat probe features precision temperature tracking with the iGrill 2 and iGrill mini, measures between -22°F (-30°C) to 572°F (300°C) with a length of 48 in., cord wrap that mounts on the back of the unit and snaps together, includes 1 temperature probe, 4 color-coded sleeves and hand wash only.Weber iGrill items are meant to be used with an Android or Smartphone. The probe is what measures the temperature, so is the thermometer, but the reading of the thermometer has to be done from the app on the phone. Here are the instructions from Weber's page on how to connect: https://www.weber.com/US/en/blog/tips-techniques/how-to-pair-igrill-with-your-smart-phone-or-tablet/weber-29565.html
